

Freestanding Height Adjustable

Nursing Table-Electric (341)

Nursing table 341 is a **free-standing** nursing table which can be **lowered** to the floor to simplify transfer for children. The table can then be **raised** to a comfortable working height by means of the push-button control. It can be folded against the wall when not in use to save space. The safety switch beneath the entire nursing area stops the table moving when it meets resistance.

(100.0cm - 140.0cm)
