BUTLER 720

Electric wardrobe lift

Butler 720 is used in the lower and higher section of the wardrobes to provide easy, safe and convenient access to clothes at the touch of a button.

Assisting people of all ages with varying needs and abilities and can be used in seated (wheelchair) or standing positions.

Practical and functional it helps to reduce barriers and maximises usability of the space.

MADE IN SWEDEN

The top part of a wardrobe is inaccessible for a person in a wheel-chair but with the help of BUTLER 720, the clothes can be lowered to a comfortable position by simply pressing a button.

The lower section of the wardrobe can be utilised and designed for other storage which can be more accessible for everyone.

Functions and advantages

- Motorised clothes rod, adjustable 70.4 cm downwards
- Maximum load 30 kg
- Telescopic clothes rod for cabinet with inner dimensions 54.5 to 156.8 cm
- Modern and discreet design
- Collision protection stops the lowering of the wardrobe rail if it comes into contact with any object
- Silent motors that take up little space
