BUTLER 722

Electric wardrobe lift

Butler 722 is used in the upper section of the wardrobe to provide easy, safe and convenient access to clothes at the touch of a button.

It maximises the usability of the space and allows for other storage in the lower section.

Assists people of all ages with varying needs and abilities and can be used in standing or seated positions.

MADE IN SWEDEN

With BUTLER 722, the space in the upper section of the wardrobe can be maximised and the lower section of the wardrobe used for other storage solutions.

With a touch of a button, clothes can be lowered out and down in an arc shape movement. Lift can be accessed in a seated or standing position-accessible for all.

A person of average height can easily reach up to 190 cm which means the clothes rod in its upper position can be 300 cm above the floor.

Functions and advantages

- Motorised adjustable clothes rod, 111.8 cm downwards
- Maximum load 30 kg
- Telescopic clothes rod for cabinet with inner dimensions 54.5 to 156.8 cm
- Modern and discreet design
- Collision protection stops the lowering of the wardrobe rail if it comes into contact with any object
- Silent motors that take up little space
